

Target Audience

Persons requiring the knowledge and skills to supervise confined space, working at heights and hot works and issue work permits.

Maximum Participants

10

Duration

1 Day

Pre-Requisites

- Sufficient language and literacy skills to follow work procedures on a mine or construction site.
- Successfully completed Confined Space Entry, Hot Works and Working at Heights training.

Effective Safety and Training Solutions

Course Outline

Control and Issue Work Permits (CIWP)

Units:

- RIIRIS201D Conduct local risk control
- MSMPER300 Issue work permits
- MSMPER201 Monitor and control Work Permits

Course Outcomes

Successful participants will be able to supervise and identify work activities – hot works, confined space entry, and working at heights - that require a specific permit.

Specific topics include:

- Purpose of permit issuing
- Compliance
- Roles and responsibilities
- Types of permits
- Authority to Work Procedure

On-Site Delivery Requirements

Participants must wear site approved work wear and PPE. For delivery at a client site the following must be provided to meet the outcomes of the course:

- Suitable classroom and training equipment
- Relevant workplace procedures and supporting documentation for hot works, confined space entry and working at heights
