Course Overview

This health and safety course has been designed for people who are either in or wanting to secure a WHS role, such as that of a WHS Coordinator or Safety Advisor. Participants will learn how to identify workplace health and safety hazards, assess and control risks, ensure compliance with current legislation and consult on WHS issues. This training can either be delivered as face-to-face over a five-day period, via our online eLearning platform (you will have 12 months to complete the course) or via Recognition of Prior Learning (RPL) which transfers existing knowledge and skills to a nationally accredited qualification.

Target Audience

Safety officers, safety supervisors and managers, safety advisors, supervisors.

Maximum Participants

12

Duration

5 Days face-to-face with post-course work.

Pre-Requisites

There are no prerequisite units required for this qualification. It is however expected that participants have English language, literacy, and numeracy skills equivalent to at least Year 11 level. Basic to intermediate computer skills are also required for entry into this qualification.
