

## Course Outline

### CPCCLDG3001A Licence to Perform Dogging

#### Target Audience

Persons requiring the knowledge and skills to perform slinging techniques, selection and inspection of lifting gear and/or the directing of the crane/operator in the movement of the load.

#### Maximum Participants

10

#### Duration

5 Days

#### Pre-Requisites

- Sufficient language and literacy skills to follow work procedures on a mine or construction site.

#### Course Outcomes

The course consists of face-to-face theory and practical training, and requires participants to complete reading tasks, written questions and load calculations (including working with angles). Students will also learn about tying knots and conducting hand and whistle signals.

#### Specific topics include:

- Use the various types of ropes, slings, chains and accessories.
- Calculate the safe working load (SWL) of any rope, slings, or chain to be used for lifting.
- Assess the weight of loads to be lifted.
- Safely sling loads of different weights and sizes.
- Direct a crane or hoist operator in the movement of a load when the load is out of the operator's view.
- Give the hand signals and whistle signals used for directing loads.

#### On-Site Delivery Requirements

Participants must wear site approved work wear and PPE. For delivery at a client site the following must be provided to meet the outcomes of the course:

- Suitable classroom and training equipment
- Relevant workplace procedures and supporting documentation
